## BEST TRADITIONAL DESIGNER

### *Joey Leicht Design*

Even though this complete gut rehab is just in the final stages of completion, we saw enough to know Joey Leicht deserves copious accolades for the stunning space. The formal dining room achieves the seamless French look Leicht was going for, thanks to wall niches with antique beveled mirror panels with polished nickel rosettes and custom built-in arched cabinets. The intricate ceiling medallion adds Old World flair and highlights the impact of the Ebanista rock crystal chandelier, while exquisite finishes, such as velvet upholstered dining chairs with Swarovski crystal-beaded trim and custom velvet drapery, add elegance and a sense of history without coming across as truffy. 371 W. Ontario St., 312.752.0294, joyleicht.com
